

# TECHNICAL WEBINAR: EXPLORING THE POTENTIAL OF INDUCTIVE CHARGING

**Date** 19 October 2023

**Where** Online

## Speakers

- Angel Moya, ETRA I+D
- Sergio Perez, ENRX Group
- Silvia Valero, Area Metropolitana de Barcelona (AMB)
- Miguel Zarzuela, CIRCE

## Concept

In this webinar targeted at electromobility stakeholders and public authorities we will explore the potential of inductive and wireless charging for deploying innovative user-centric charging infrastructure in cities. This webinar aims to delve deep into the world of inductive charging, with valuable insights into its benefits, challenges, and prospects. We will also explore two use-cases from EU funded projects USER-CHI and INCIT-EV.

## Draft agenda

Time	Presentation	Speaker
9:30 – 9:45	Introduction: USER-CHI project	Ángel Moya, ETRA I+D
9:45 – 10:10	Welcome to the world of inductive charging: concept, benefits, potential, challenges and future prospects	Sergio Perez, ENERX Group
10:10 – 10:30	Inductive charging in practice: INDUCAR use case in Barcelona	Silvia Valero, AMB
10:30 – 10:45	Inductive charging in practice: INCIT-EV	Miguel Zarzuela, CIRCE
10:45 – 11:00	Q&A	Eurocities + all
