

# Webinar – Cybersecurity and data protection in electric mobility

18 January 2024

10:00 -12:00 CET

Online: [register here](#)

---

## INTRODUCTION

This webinar aims to address the issues of cybersecurity and data protection for the electric vehicle ecosystem. The webinar will start with a scene setting on the challenges electromobility faces on data protection and cybersecurity, with a legislative, technical and user approach before exploring some solutions developed by EU-funded projects.

## Agenda

Time	Presentation	Speaker
10:00-10:20	Legal aspects of cybersecurity and data protection in mobility	Simon Großmann – IKEM
10:20-10:40	Technical overview on cybersecurity in mobility	Oihana Otaegui – Vicomtech
10:40-11:00	Use case from CARAMEL Project	Jordi Guijarro – i2CAT
